

was in her little ⁽³⁾ white dress.

Just heard the 4:00 PM weather report. Temperature at that time was 74°. ^{Supposed to go to the upper 50's tonight} Believe it or not!

It has been a real clear day with quite a breeze. Betty and I have been having a contest, (Daddy's play period) she keeps kicking the covers off and I have been trying to keep them on her, what a struggle! so far she has been winning.

I have made out alright today. Had her bathed by 10:15 this morn. Not bad was it?

The Dietz' have been trying to talk us into going to a show tonight they saw "National Velvet" Monday and think it would be worth our while if we would go to see it. Pretty

good of them to be so anxious for us
to go out while they take care of
Betty.

Glad to hear of your report
of the train trip and that everything
went your way. It is nice to hear
that Aunt Flo is improving.

Thanks ever so much for all
the help you rendered while here
and it was awfully nice seeing
you.

I'll quit for now

Love
from

Jean, Len & Betty
